

CALL FOR PAPERS

Periodically, the Association sends out a “Call for Papers” to be published in our LAE Journal. **Papers are considered from within or without ACJA/LAE membership.** If you have an article/manuscript that you would like published in our LAE Journal, please follow the instructions below.

Specifications for Articles/Manuscripts

1. Manuscripts should be on an electronic document, (pdf, word, doc file) and double-spaced.
2. Manuscripts should be no more than twenty (20) pages in length not including sources and should be prepared in accordance with the most current Publication Manual of the American Psychological Association edition.
3. To permit anonymous review, all identifying materials should be kept out of the article. The cover page should give the author(s) name and institutional affiliation; the first page should contain only the title and abstract of the article.
4. A short Abstract should be included as a preface to the article. A biographical sketch should also be included (no more than 100 words), about the author(s) covering professional experience, recent publications, and research interests.
5. It is the policy of the Journal Editor not to publish articles which have appeared or are about to appear in other publications. Therefore, simultaneous submission to another journal is unacceptable. Every effort will be made to notify authors of editorial decisions within ninety (90) days of the receipt of the article.
